Button Function

Short press: Turn on/off the light.
Long press (1-6s): Continuous brightness adjustment, dimming range 1-100%.

Short press: Enter static mode, and switch 5 levels brightness(10%,25%,50%,75%,100%).
Double click: Enter dynamic mode and switch 2 dynamic modes (white fade, white jump). White jump in the order of 25%, 50%, 100% brightness.
Long press: In static mode, long press for 1-6s to adjust the brightness continuously, dimming range 10-100%.
In dynamic mode, long press for 2s to sequentially switch 5 levels of dynamic change speed,
and the LED indicator blinks 1 time for every level of switching.

Match With RF Remote Controller

There are two ways to match/delete:

Use Match key

Match:
Press and hold and button 2s, the LED indicator blinks slowly,
immediately press on/off key (single zone remote)
or zone key (multiple zone remote) of the remote.
The LED indicator stop blinks means match is successful.

Delete:
Press and hold and button5s,
The LED indicator fast flash 5 times means all matched remotes were deleted.

Use Power Restart

Match:
Switch off the power of the controller, then switch on power, repeat again.
Immediately short press on/off key (single zone remote)
or zone key (multiple zone remote) 3 times on the remote.
The light blinks 3 times means match is successful.

Delete:
Switch off the power of the controller, then switch on power, repeat again.
Immediately short press on/off key (single zone remote)
or zone key (multiple zone remote) 5 times on the remote.
The light blinks 5 times means all matched remotes were deleted.

Safety Information

1. Do not install with electricity.
2. Please use it within the working temperature range of -20℃ ~+50℃ to ensure the stable performance of the product.
3. Avoid prolonged immersion in water.
4. Avoid using it in large metal areas or areas with strong electromagnetic waves, otherwise the remote control distance will be affected.
